OVER A CENTURY OF QUALITY SCIENTIFIC PUBLISHING

Rockefeller
University
Press

Rockefeller University Press (RUP) journals were established by the research community, and editorial decisions and policies continue to be driven by scientists who actively contribute to their fields, appreciate the value of peer review, and desire a better publication experience for all. RUP journals publish groundbreaking research in the life sciences and biomedicine from leading investigators around

the world and serve as a valued resource to those engaged in cutting-edge research and who train future generations of scientists. Articles published in RUP journals are frequently cited, and institutions that most frequently access content in RUP journals are ranked among the top in life sciences research output.

Journal of Cell Biology (JCB)

publishes advances in any area of basic cell biology as well as applied cellular advances in fields such as immunology, neurobiology, metabolism, microbiology, developmental biology, and plant biology. Est. 1955

2026 | Vol. 225
12 print and online issues
Articles published daily
Print ISSN: 0021-9525 Online ISSN: 1540-8140

- Research Scientist/Senior Scientist/Staff Scientist
- Physician Scientist/MD
- Professor/Associate Professor/Assistant Professor
- Postdoctoral Researcher
- Graduate Student

Total publications: **~290** / total citations: **~30**

JHI Editor-in-Chief: Jean-Laurent Casanova

The Levy Family Professor at The Rockefeller University, Howard Hughes Medical Institute Investigator, and a Professor at the Necker Hospital for Sick Children

2026 DIGITAL ADVERTISING

Reach prospective customers across multiple online channels with our trusted journals, and maintain sufficient brand exposure, engagement, and reach. Add these options to your digital marketing mix, whether you are advertising a new product, service, or job opportunity. Do you have advertising ideas not listed here to explore? Contact Sati Motieram at motierd@rockefeller.edu.

WEBSITE BANNER ADVERTISING

We accept banner advertising on all four sites, with space available on our journal home pages and article pages. Why is banner advertising effective? With strong graphics, animation, and call to actions, banner ads are an excellent way to create greater exposure for your campaign and provide a direct pathway to your website or specially designed landing page.

EMAIL ALERT ADVERTISING

Subscribers and non-subscribers alike may sign up to receive Email Alerts from JCB, JEM, JGP, and JHI to learn when new research is published. There are three different types of Alerts for each of the journals: Complete Issue (monthly, the first Tuesday of the month), Daily Publication-Weekly frequency (Wednesdays), and Daily Publication-Daily frequency. We accept banner advertising in monthlong blocks to display your message at the top of each email of your desired journal.

Email Alert Ad Details

Avg. click rate	3.8%	4%	3.2%	15%

SPECIAL COLLECTION AND MEETING ABSTRACTS EMAIL ADVERTISING

Each journal creates special collections on topics including but not limited to cell biology, immunology, cancer, neuroscience, biophysics. The collections include the latest cutting-edge research, and the “Year In” collections from JCB and JEM highlight the editors’ top picks and are widely read. For select meetings, JHI publishes abstract issues. The collections and abstract issues are distributed to Email Alert subscribers, authors, reviewers, and editors and supported by significant social media engagement. For topic-based advertising, this is a solid option.
