

Scullion et al., Vol. 105, No. 1, July 1987

On page 73 Table II appeared with incorrect references. The correct version is shown below.

*Table II. Lack of Correlation of the Lateral Diffusion Coefficient for Wild Type and Mutant G Proteins with Their Rates of Transport\* from Endoplasmic Reticulum to the Golgi*

Protein‡	D ( $\times 10^{11}$ cm $^2$ /s)§	(Transport rate) $^{-1}$	Reference
<i>min</i>			
Wild type G	8.5	15–20	29
QN2	13.1	15–20	24
TA2	17.5	15–20	23
dTM14	19.0	15–20	1
CS2	22.6	15–20	28
G23	11.3	25	26
G $\mu$	21.1	110–120	26
GHA	28.6	55–60	26

\* Measured as the half-time for acquisition of endo H resistance.

‡ As defined in Table I.

§ As stated in Table I; standard errors given in Table I.
