Vol. 166, No. 3, August 2, 2004. Pages 407–418.

During the production of this article, a typographical error was introduced to the Abstract. The term “phosphatase” was mistakenly published as “phosphate.” The corrected sentence is printed below.

Evidence is provided that the β_1 cytodomain plays an important role in mediating β_1 integrin association with either IRS-1 or Grb2-associated binder1 (Gab1)/SH2-containing protein-tyrosine phosphatase 2 (Shp2), downstream effectors of IGF-IR: specifically, β_{1A} associates with IRS-1 and β_{1C} with Gab1/Shp2.
