

Vol. 172 No. 5, February 27, 2006. Table of contents.

In the February 27 cover legend, the colors representing peripherin mRNA and protein were mislabeled. The corrected legend appears below.

“Colocalization (red) of peripherin protein (yellow) and its mRNA (purple) might promote the cotranslational assembly of peripherin precursor particles. See page 747.”

This error appears only in the printed version of the Table of contents. The error has been corrected in the html version of the legend.
