

INCENP–aurora B interactions modulate kinase activity and chromosome passenger complex localization

Zhenjie Xu, Hiromi Ogawa, Paola Vagnarelli, Jan H. Bergmann, Damien F. Hudson, Sandrine Ruchaud, Tatsuo Fukagawa, William C. Earnshaw, and Kumiko Samejima

Vol. 187 No. 5, November 30, 2009. Pages 637–653.

An error was introduced into the text of this article during in-house copyediting. We apologize to the authors for this oversight. The correct sentence from the introduction appears below.

Phosphorylation of a TSS motif near the INCENP C terminus leads to full kinase activation through a feedback mechanism (Bishop and Schumacher, 2002; Bolton et al., 2002; Honda et al., 2003).

The html and pdf versions of this article have been corrected. The error remains only in the print version.
