Cardiolipin defines the interactome of the major ADP/ATP carrier protein of the mitochondrial inner membrane

Steven M. Claypool, Yavuz Oktay, Pinmanee Boontheung, Joseph A. Loo, and Carla M. Koehler

Vol. 182 No. 5, September 8, 2008. Pages 937–950.

The authors recently noticed that the published amino acid sequence of the protein C epitope tag component of the CNAP tag was incorrect. The correct amino acid sequence of the CNAP tag employed is: MEDQVDPRLIDGK-GGAGG–**HHHHHHHHHH** (protein C epitope tag underlined and His_{10} tag in bold).

The html and pdf versions of this article have been corrected. The error remains only in the print version.
