

A novel single-cell screening platform reveals proteome plasticity during yeast stress responses

Michal Breker, Melissa Gymrek, and Maya Schuldiner

Vol. 200 No. 6, March 18, 2013. Pages 839–850.

The authors have noted several errors in the standard deviation values and localization phenotypes reported in Table S1. The original table has been replaced with a corrected version, which is available at http://jcb.rupress.org/content/suppl/2013/03/18/jcb.201301120.DC1/JCB_201301120_TableS1.xlsx.
