

Rac1 functions as a reversible tension modulator to stabilize VE-cadherin trans-interaction

Nazila Daneshjou, Nathan Sieracki, Geerten P. van Nieuw Amerongen, Daniel E. Conway, Martin A. Schwartz, Yulia A. Komarova, and Asrar B. Malik

Vol. 208 No.1, January 5, 2015. Pages 23–32.

The authors inadvertently omitted Daniel E. Conway from the list of authors. The corrected author list appears above. His affiliation is the Department of Biomedical Engineering, Virginia Commonwealth University, Richmond, VA.

The HTML and PDF versions of this article have been corrected. The error remains only in the print version.
