Caravella, Stephanos Ioannidis, Christopher Dinsmore, Sunkyu Kim, Axel Behrens, David Komander, Benedikt M. Kessler, Sylvie Urbé, and Michael J. Clague

Vol. 220 No. 3 | 10.1083/jcb.202004211 | January 28, 2021

After publication, the authors reported a mistake made during the assembly of the Western blots in Fig. 4 D, which occurred after peer review and prior to publication. The labels “wt” and “USP9X<sup>-/-</sup>” were mistakenly swapped. Reviewers and editors had assessed the correct version of the figure. The conclusions drawn from the experiment shown in Fig. 4 D are not affected.

The labels in the Western blots of Fig. 4 D have been adjusted accordingly, and the corrected figure panel is shown here. This error appears only in print and in PDF versions downloaded on or before February 12, 2021.
