

Goodenough and Heuser, Vol. 95, No. 3, December 1982

Page 805, Figs. 16 and 17 should have appeared as follows:

FIGURES 16 and 17 Fig. 16. Relaxed *Chlamydomonas* axoneme, unfixed, incubated in 0.2 mM vanadate and then 1 mM ATP. Stereo pair. Head-to-head linkers are seen to advantage. $\times 480,000$. Fig. 17. Relaxed *Chlamydomonas* axoneme, unfixed, incubated in 1 mM ATP. Note how this "ATP image" is indistinguishable from the "vanadate image" of Fig. 16. $\times 480,000$.
