

CORRECTION     *The Journal of Experimental Medicine*

---

The following figure legend was omitted from the article "Recombination within the HLA-D region. Correlation of molecular genotyping with functional data," by Mary Ann Robinson, Eric O. Long, Armead H. Johnson, Robert J. Hartzman, Bernard Mach, and Thomas J. Kindt (July 1984, 160:222):

FIGURE 5. Southern blot analyses of family 7 (as in Fig. 2) using the SB $\beta$  probe. (A) Genomic DNA samples were digested with EcoRI. (B) Genomic DNA samples were digested with HindIII. (C) Genomic DNA samples were digested with BglII.
