

In the article "Macrosialin, a macrophage-restricted membrane sialoprotein differentially glycosylated in response to inflammatory stimuli" by S. S. Rabinowitz and S. Gordon (October 1991, 174:827), the authors neglected to supply the entire acknowledgment, which follows.

This work was supported by grants from the Wellcome Trust and the Medical Research Council, UK. S. S. Rabinowitz was supported by the British Council and the University of Cape Town.
