The authors regret that in the originally published Fig. S1 F, two flow images representing CD45.1⁺ and CD45.2⁺ ILC3 populations in total ILCs were inadvertently duplicated. The corrected Fig. S1 F is shown here. This correction does not change the description, interpretation, or the original conclusions of the manuscript, and the legend remains unchanged. The error appears in PDFs downloaded before July 10, 2023.
