After publication, it came to *JEM*'s attention that the article did not include any information for readers to access the raw data of Fig. S3, J and K. These data have now been deposited in the BioStudies database (<https://www.ebi.ac.uk/biostudies/>) and can be accessed with the accession number S-BSST1262. The HTML version of the article has been edited to include the information about the database and the accession number in the LC-MS-MS section of the Materials and methods. The omission remains in the PDF and print.
