Page 502, Figure 12 legend, ninth line

Due to an editorial error the units of  $\text{Ni}^{2+}$  appeared incorrectly. The corrected sentence appears below:

Spectra were collected and averaged in  $0 \text{ Ca}^{2+} + 2 \text{ mM Ni}^{2+}$  (dotted trace, “bkgd”), and near the peak of the transient  $\text{Na}^{+}$  CRAC current (“peak”) and after  $\text{Na}^{+}$ -ICRAC reached steady-state (“s-s”).
