Volume 126, No. 3, September 5, 2005. Pages 205–212.

The original version of this article contained an error. The concentration for PIP₂ used to attenuate rundown should have been written as 0.3 μ M, not 3 μ M.

In Materials and Methods, p. 206, under the section “Electrophysiology,” “3 μ M PIP₂ in the intracellular solution” should read “0.3 μ M PIP₂ in the intracellular solution.”
