

Purified human brain calmodulin does not alter the bicarbonate permeability of the ANO1/TMEM16A channel

Yawei Yu and Tsung-Yu Chen

Volume 145, No. 1, January 5, 2015. Pages 79–81.

In a revised version of Jung and Lee's Letter to the Editor, two additional panels were added to their Fig. 1. Consequently, Yu and Chen's references to Jung and Lee's Fig. 1, B and C, should refer instead to Fig. 1, C and D.

The HTML and PDF versions of the article have been corrected.
